

Title: React Native Mobile Engineer

Location: Miami, Florida

Position Description:

General Description

- Collaborate with Technical leads to effectively build and maintain code running our React Native mobile applications
- Evaluate software requirements to design, implement and maintain solutions for a scalable and globally used product
- Provide feedback and problem solving when the schedule doesn't meet deadlines

- **The ideal candidate is:**
 - A team player that is eager to contribute in a fast moving environment
 - Able to clearly communicate issues along with potential solutions
 - Self-motivated individual who takes initiative and is able to analyze and solve problems
 - Has great organizational skills with attention to detail
 - Someone who stands up for quality in the face of deadlines
 - Someone who believes in taking the time to develop and maintain a clean, readable, testable and performant codebase.

Work experience requirements

- Experience working in an Agile environment.
- Extensive experience with React Native, React, & Redux
- Experience building mobile applications for either iOS or Android platforms.
